

# DRAFT RESULTS-BASED FRAMEWORK 2016

ULTIMATE OUTCOME														
Strengthened sector that is more able to respond to gender-based violence (GBV) in the context of socio-economic inequality in ways that transform gender relations, address key intersections, and empower women and girls in particular														
INTERMEDIATE	↑		↑			↑			↑				↑	
	1. Increased donor collaboration and exchange in relation to GBV		2. Strengthened coordination, collaboration and strategic engagement in relation to GBV			3. Implementation of more integrated, comprehensive, transformative and innovative <sup>1</sup> responses to GBV by partners			4. Enhanced capacity of partner organisations to function effectively and respond to GBV				5. Effective and efficient Grantmaking to the GBV sector	
IMMEDIATE OUTCOMES	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑	↑
		1.1. Increased resource pool for integrated, comprehensive, transformative and innovative programming	1.2. Donors deliberate & reflect together about insights & issues emerging for donors	2.1. Enhanced consistent & constructive strategic engagement between government & CSOs on GBV	2.2. Partner organisations engage, co-operate and collaborate in terms of shared agenda setting and shared voice	2.3. Effective & sustained engagement between gvt depts. (& other gvt agencies) and CSOs at operational level	3.1. Increased learning-based networking, knowledge-sharing and documentation of work among CSOs	3.2. JGF funds are employed to support/leverage innovative projects and interventions	3.3. Partners scale up their work using a range of strategies <sup>2</sup> with the aim of achieving wider impact	4.1. Strengthened leadership within organisations	4.2. Improved wellbeing of those working in the sector	4.3. A greater number of organisations function better (reflected in better planning, results tracking and reporting) and transition	4.4. Organisations better able to raise funding for their work	5.1. Strategic and operational capacity is in place for effective grant-making

<sup>1</sup> Innovation has the usual association with the work of front-runners and risk takers, but in this case also denotes interventions and strategies that do better at tackling the root causes of GBV

<sup>2</sup> These strategies may include replication, expansion of work or sharing approaches with government for use in programmes or policy.
